

R. MOUNIK KUMAR

Full-Stack Web Developer | 3rd-Year B.Tech CSE Student

+91 87636 28608 | rmounikkumar2024@gmail.com | Berhampur, Odisha, India | Portfolio: <https://r-mounik-kumar.vercel.app/> | GitHub: github.com/rmounikkumar | LinkedIn: [linkedin.com/in/rmounikkumar](https://www.linkedin.com/in/rmounikkumar)

SUMMARY

3rd-year B.Tech Computer Science student with hands-on experience building and deploying full-stack web applications using React, Node.js, Express.js, MongoDB, and REST APIs. Proven ability to ship production-ready projects end-to-end: frontend, backend, database, authentication, payments, and cloud deployment. Passionate about learning by building, experimenting, and turning ideas into working solutions.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript (ES6+)

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Google OAuth 2.0

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Vercel, Render, Linux, WSL, MS Office

Other: AI-Assisted Development (ChatGPT, Claude), Canva, Photoshop, Problem Solving, Data Structures & Algorithms

PROJECTS

ShopEasy — Full-Stack E-Commerce Web Application

Live: <https://ecommerce-store-shop-easy.vercel.app/> | Code: <https://github.com/rmounikkumar/ecommerce-store>

Tech stack: JavaScript, Vite, Node.js, Express.js, REST APIs, MongoDB, Razorpay API, Brevo, JWT

- Built a ready-to-run e-commerce platform with product search & filters, galleries, shopping cart, checkout, admin panel, and real inventory management (108 demo products across 9 categories).
- Developed secure REST APIs with Node.js and Express.js; implemented email-OTP authentication using httpOnly cookies, rotating session tokens, and rate limiting.
- Integrated Razorpay payment gateway and Brevo transactional email; resolved production issues including inventory race conditions; deployed on Vercel.

EduAssistant AI — AI-Powered Educational Platform

Live: <https://eduteck.onrender.com/> | Code: <https://github.com/rmounikkumar/Eduteck-website>

Tech stack: Node.js, Express.js, REST APIs, MongoDB, JWT, Tailwind CSS, Chart.js, Google OAuth 2.0

- Developed three responsive role-based dashboards for students, teachers, and parents with JWT authentication, role-based access control (RBAC), and Google OAuth sign-in.
- Built course enrollment with video progress tracking, auto-graded quizzes, and analytics dashboards using Chart.js.
- Integrated an AI chat assistant for learning support; designed normalized MongoDB data models to manage multi-role permissions.

EXPERIENCE

Self-Taught Full-Stack Web Developer (2025 – Present)

- Designed, built, and shipped two production-ready full-stack applications end-to-end: frontend, backend, database, authentication, payments, and cloud deployment.
- Active hackathon participant and open-source contributor.
- Proficient in Linux & WSL system administration; authored a Linux/WSL command-line reference guide published on my portfolio.

CERTIFICATIONS (COURSERA)

Google IT Automation with Python Professional Certificate

Google IT Support Professional Certificate

Google Cybersecurity Professional Certificate

Google UX Design Professional Certificate

Meta Front-End Developer Professional Certificate

Linux Command Line Basics

EDUCATION

B.Tech — Computer Science & Engineering (2024 – 2028, 3rd Year)

Kalam Institute of Technology, Berhampur, Odisha

CURRENTLY LEARNING

Data Structures & Algorithms | Operating Systems | Python Automation | GATE Preparation
